RE: Testimonial – KeyReturn International

The Queensland Olympic Council used the services of KeyReturn International to produce a special keytag for the official London Calling – 2012 Australian Olympic Team Lunch on 25th May 2012.

The design process was managed exceptional well, and both the keytag and presentation package was first class. We greatly appreciate the assistance provided to our organisation during the whole process. The response from the 600 attendees who were each provided an Australian Olympic Team keytag, was very positive and greatly appreciated. Having the Australia wide free return service with the keytag, makes it an absolute winner.

The registration process of the keytag also assisted our organisation with gaining a quality and clean database, something we have struggled to gain over the years through other means. I would highly recommend KeyReturn International to any business or organisation that would be considering having a keytag produced.

Yours sincerely

Michael Brierley
Executive Director
